

January 2017

Dear Microbiologics Customer,

The name of Microbiologics product 01141 (ATCC<sup>®</sup> 42694<sup>™\*</sup>) has been changed from *Wallemia sebi* to *Wallemia mellicola*.

ATCC reported to Microbiologics that ATCC<sup>®</sup> 42694<sup>™\*</sup> was re-identified as *Wallemia mellicola*, a close sister of *Wallemia sebi*, based on the multigene sequence analysis. ATCC also reported that this change does not affect its use as a quality control strain for standard tests.

Sincerely,

Jane Johnson  
Technical Support Specialist
