

October 2010

Dear Microbiologics Customer,

The name of Microbiologics product 0669 (ATCC Licensed Derivative[®] ATCC[®] 9341a^{™*}) is *Kocuria rhizophila*.

The microorganism was formerly called *Micrococcus luteus*. The microorganism was reclassified because a polyphasic study indicated that ATCC[®] 9341a^{™*} belongs to the genus *Kocuria*. The study combined molecular data with cytochemical properties and physiological characteristics.

Sincerely,

Laurie Kundrat
Technical Support Specialist
Microbiologics, Inc.
