

## Highlights:

Microbiologics offers identification panels designed specifically for the Bruker MALDI Biotyper System. Our identification panels for special interest libraries, such as the MBT Mycobacteria Suite and MBT Filamentous Fungi Library, allow your laboratory to efficiently and cost effectively perform extraction QC and trainings.

- Panels contain two KWIK-STIK™ units of each recommended strain
- Refrigerated storage is easy and economical
- Online Certificate of Analysis provides detailed strain information
- Traceability to reference cultures ensures authenticity
